Title: Need for flood management in Assam.

KUMARI SUSHMITA DEV (SILCHAR): Flooding of Brahmaputra and Barak Rivers almost every year cause severe damage to the life and property of the people of Assam and other states in the North East. Assam is suffering from floods even today. The Brahmaputra Board has been abolished by the government. The draft Bill for a new body was circulated to all the North Eastern States and West Bengal on 23.02.2015 for their views and all the basin States agreed to it and the comments received thereon were incorporated in the draft Bill. A decision was taken to form a Corporation but no action has been taken in this regard till date. I request the Government to expedite the matter.
